

## MICRO GRINDING PINS ON CARBIDE SHANKS

Industry is facing an increasing demand for super small precision ID grinding. We are delighted to present the new line of Micro Diamond & Borazon Pins. The demand derives from various industries such as Ceramic and Electronics. We now offer the smaller diameter pins starting at 0.016" diameter as standard tools. The pins are available on a Carbide shank - for extra strength and precision.

Order# Diamond	Grit	D	T	L1	Y	L	Price Each
CMPD-016	500/600	0.016"	0.118"	0.354"	1/8"	1.570"	<b>\$42.95</b>
CMPD-020	325/400	0.020"	0.118"	0.354"	1/8"	1.570"	<b>\$40.95</b>
CMPD-024	325/400	0.024"	0.118"	0.354"	1/8"	1.570"	<b>\$38.95</b>
Order# Borazon	Grit	D	T	L1	Y	L	Price Each
CMPB-016	500/600	0.016"	0.118"	0.354"	1/8"	1.570"	<b>\$42.95</b>
CMPB-020	325/400	0.020"	0.118"	0.354"	1/8"	1.570"	<b>\$40.95</b>
CMPB-024	325/400	0.024"	0.118"	0.354"	1/8"	1.570"	<b>\$38.95</b>

**Remarks:**

**Minimum Clamping Length = Half of total length  $L_e=0.5 \times L$ .**

Tolerance: D = +/- 0.0019" T = +/- 0.039" L1 = +/- 0.039" L = +/- 0.039"
