

The Titan ZDM-LED Illuminator is a new LED Light source for the ZDM Depth Measuring Microscope.

This new illuminator has uniform light to allow for better image quality at the higher magnification of the ZDM-1. It also uses less power than the standard incandescent system.

The power supply comes standard with a North American USB power supply, there is also a universal power supply available that can be used from 100-240V 50/60 Hz. with the addition of the ZDM-LED UPS Universal Power Supply it can be used anywhere in the world.

The LED system is rated at 320 lumens maximum output and has a built in rheostatically controlled dimmer switch. The LED is rated for over 75,000 hours of use.

Power consumption is 0.77 Amps at 2.5 Watts.
