

Single LED Industrial & Assembly Lamp

Single LED Gooseneck Lamp

Using the latest in LED technology, the LED outperforms many halogen products in light illumination and energy efficiency producing 3100K color temperature.

The unique hood is designed to minimize operating temperature and the compact shape, linear light output and adjustable gooseneck provides the ultimate in positioning flexibility.

The LED is powered from the 100-240 volt power supply with North American type plug included with the light.

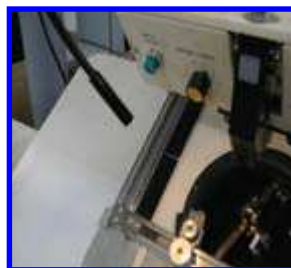

- 18" Long Single Gooseneck for ideal light positioning with magnetic base for use on industrial machinery and assembly stations
- Light & Portable Magnetic Base
- Sleek Anodized Protective Black Finish
- Bright 3 Watt LED Total Light Output
- Smooth Dimming
- 3100K Color Temperature white light
- Made in the USA

Specifications

Light Output @ 12"	400 Lux
Color Temperature	3100 K
CRI (Color Rendering)	92 RA
Rated Life @ 12V	60,000 Hours

Industrial Use

Assembly Use

Ordering Information

Model Number	illumination
AN-MB-18-LED	3 WATT LED LIGHT MAGNETIC BASE
